Annual Flower Seeds

All Flower Seeds pkt. 10 cts.; \$1 per doz. pkts., unless otherwise noted

Marigold, Yellow Supreme

AGATHÆA cœlestis. Pretty blue Marguerite with yellow center. Free flowering.

AGERATUM, Blue Ball. Reselected, large-flowered dark blue variety of compact habit.

Blue Perfection. Very free-blooming, large-flowered mauve variety. Very compact.

Imperial Dwarf, Blue.

Imperial Dwarf, White.

ALYSSUM. Blooms early. Desirable for borders.

Sweet (A. maritimum). Fine white-flowered.

Lilac Queen. Dwarf creeper. White and violet.

Little Gem. Grows 4 to 5 inches tall.

AMARANTHUS. Summer Poinsettia.

ASTERS, American Beauty Wilt-resistant. Plants 2½ to 3 feet high, with long, heavy stems, bearing large, compact flowers. They bloom from early August until frost. **Carmine-Rose; Crimson; Purple; White; Lavender; September Beauty** (delicate flesh-pink); **Finest Mixed.**

Each of above varieties, pkt. 15 cts.; ¼ oz. \$1

Improved Crego Wilt-resistant. See illustration in color on front cover. Plants robust, branching, about 2½ ft. high. Flowers large, double, and well formed. One of the finest varieties for all purposes. **Azure-Blue; Deep Rose; Pink; Purple; White; Finest Mixed.**

Pkt. 25 cts. One pkt. each of above 5 varieties, \$1

New Sunshine, Mixed.

BALLOON VINE. Love-in-a-Puff.

CLARKIA, Mixed.

COLEUS, Mixed. Different types.

COSMOS, Early, Mammoth Mixed.

Lady Lenox. Late. Shell-pink.

Late, Mammoth Mixed.

Double Crested, Pink.

Double Crested, Mixed.

Klondyke, Orange Flare. See illustration in color on front cover. At last we may grow the lovely orange-colored Cosmos and be assured of having flowers before frost. In most parts of the country this brilliant-hued flower is practically unknown because of its late-flowering habit. Realizing its beauty, however, efforts have been made toward producing an early-flowering strain which may be enjoyed by all. This has been accomplished in Orange Flare, a strain which is in full bloom less than five months from sowing. The color is the same vivid orange of the ordinary Klondyke, with attractive light green foliage. Pkt. 25 cts.

CYPRESS VINE, Mixed.

DAHLIA SEED, Coltness Hybrid, Unwin's. *New.*

See illustration in color on front cover. A new form of the dwarf single type which will bloom 4 months after planting. Splendid for bedding. Includes many fine colors. Pkt. 25 cts.

Fine Single Mixed.

Fine Double Mixed.

DAISY, AFRICAN, Blue-eyed.

New Hybrids. Mixed. Pkt. 25 cts.

DIANTHUS chinensis. Indian Pinks.

Double Mixed. All colors.

Heddewigi. Japanese Pinks.

Laciniatus splendens. Free flowering and easily grown, the Dianthus family has for years furnished us with some of our most popular border subjects. One of the most recent additions to this family is the sterling novelty *Laciniatus splendens*, a variety which, in our opinion, is the most striking Dianthus we have ever offered. The flowers are very large—over 2 inches across—in a brilliant shade of crimson, with a large, boldly contrasting glistening white eye. Pkt. 20 cts.

DIDISCUS cœrulea. Blue Lace Flower. Blooms most profusely from July till November.

ESCHSCHOLTZIA, Sunset Mixture. California Poppy.

FEVERFEW. White flowers. Height, 1 ft.

FORGET-ME-NOT, Blue (Myosotis palustris).

FOUR O'CLOCK, Tall. Marvel of Peru. Red, Yellow, and Striped. **Mixed.**

GAILLARDIA, Indian Chief. *New.* Pkt. 15 cts.

HELIOTROPE. Delightful fragrant flowers.

KOCHIA. Summer Cypress.

LANTANA. Good for porch-boxes. **Fine Mixed.**

LARKSPUR (Annual Delphinium). Empress

Rose, Lustrous Carmine, Dark Blue, White,

Sky-Blue, and Finest Mixed.

LINUM. Crimson Flax. Height, 8 to 12 in.

LOBELIA, Crystal Palace. Azure-blue.

Finest Mixed. White, Pink, and Blue.

LUPINE ANNUALS. Blue, Sky-Blue, Rose, White, and Mixed Colors.

MARIGOLD, YELLOW SUPREME

New. This is a giant Marigold whose perfectly formed flowers have broad, overlapping petals symmetrically arranged in almost perfect camellia form, and of a soft clear shade of moonlight-yellow comparable to no other flower in the Marigold family. In place of the old and often unpleasantly pungent odor, this superb new variety has an aromatic herb-like fragrance that is faint and entirely pleasing. Pkt. 25 cts.

MARIGOLD, Lemon Ball. Tall African Marigold.

Orange Ball. Enormous; orange; double.

Double African, Mixed. Yellow and orange.

Guinea Gold. Flowers semi-double, 2 to 2½ inches across, with broad, wavy petals of a brilliant shade of orange, flushed with gold. Pkt. 15 cts.

Double, Dwarf French, Mixed.

Legion of Honor. Little Brownie.

MIGNONETTE. Delicately scented. **Mixed.**

MOONFLOWER, Blue and White.

MORNING-GLORY, Japanese. **Mixed.**

NASTURTIUM, Golden Gleam. The new double

Nasturtium. Pkt. 15 cts.; oz. 50 cts.

Dwarf Mixed. Tall **Mixed.**

Double Scarlet Gleam. The flowers are a fiery orange-scarlet, a color comparable to the brilliance of scarlet sage, or seeing a row of the plants one might visualize a showy border of scarlet geraniums. The individual blooms are of an immense size, almost 3 inches across, much larger than any Nasturtium ever known. The sweet fragrance is more pronounced, and the double flowers more uniformly well formed. The foliage is the same lush green characteristic of Golden Gleam. Pkt. 25 cts.

Glorious Gleam Hybrids. See illustration in color on front cover. Flowers are double and sweetly scented, of the same type as the well-known Golden Gleam. The color-range includes a glorious assortment of brilliant shades. Pkt. 25 cts.

NICOTIANA. Flowering Tobacco.

NIGELLA. Love-in-a-Mist. **Double, Mixed.**

ZINNIA, FANTASY, Mixed. New Zinnias are always welcomed by home gardeners and florists alike. While the giant-flowered varieties are still popular, the trend of late years has been toward the smaller flowered, more graceful strains. This new Fantasy Mixture meets this demand in all details. The rounded flowers are composed of a mass of shaggy, ray-like petals which give a delicate and refined appearance to the medium-sized, double flowers, large enough to satisfy the desire for mass of color, yet small enough to lend themselves gracefully to flower arrangement. The color-range includes the brightest shades of reds and orange, as well as the popular pastel pinks and cream. See illustration in color on front cover. Pkt. 25 cts.

Shrub Rose • Rosa Hugonis

Father Hugo's Rose is a vigorous shrub from the mountains of China. It has long, slender canes which stand erect until they are bowed over by the weight of the thousands and thousands of lovely, pale yellow, single flowers which cover them from tip to base in spring. Completely hardy. 85 cts. each.

ROSA ROULETTI • Miniature Rose

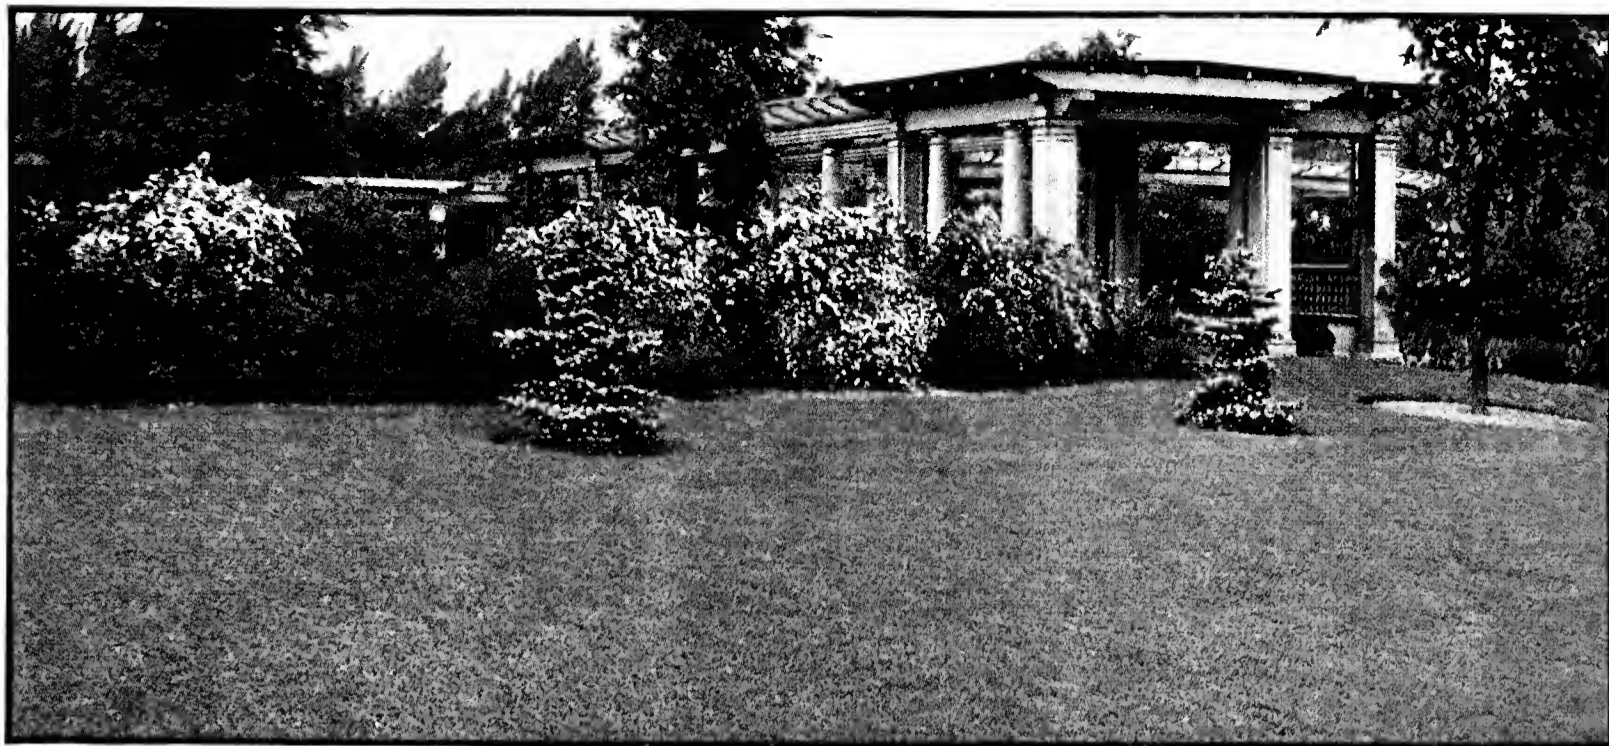

This is a perfect little Rose, the bush seldom more than a few inches high, with well-shaped tiny pink flowers about the size of your thumb-nail. The plants grow bushy but very slowly, and the miniature foliage is almost evergreen. Hardy and practically everblooming. A favorite for pots and rock-gardens. Indoors, the flowers are a little larger and last longer. A unique and delightful little treasure. Plants from 3-in. pots, 50 cts. each.

Polyantha or Baby Roses

- Cecile Brunner. The Sweetheart Rose. A dainty variety with small double blooms of perfect form. They are arranged in many-flowered, graceful sprays. Soft rosy pink on a rich creamy white ground. Moderately fragrant.
- Chatillon Rose. A very distinct and pretty, silvery rose-pink passing to a white center. Free flowering and very desirable.
- Gloria Mundi. The most brilliant orange-scarlet imaginable. Showy, well-formed, double flowers produced with the greatest freedom.
- Golden Salmon. Bright orange-scarlet buds expanding to glistening orange blooms that fairly blaze in the sunlight. Very showy.
- Lafayette. Large, bright crimson-scarlet sprays of 40 or more flowers each. Most dependable for its continuous display of color.
- Magnifique. Splendid large flowers of a clear shell-pink arranged in showy large trusses and remarkably free-blooming.
- Scarlet Button. The richest and brightest of the Baby type—an intense brilliant scarlet of medium size. Has large, graceful trusses.

All Polyantha or Baby Roses, 85 cts. each; \$9 per doz.

Richardson's Pure Lawn Grasses

RICHGREEN Lawn Grass Seed

Yearly comparative trials have proved this strain to be unsurpassed for first-class, permanent lawns. Only the finest varieties of suitable grasses are used and the seed is re-cleaned until it is free from chaff and weed seeds.

This seed will produce a green, smooth, deep-rooted, velvety sod with a thick bottom, free from the common grasses which produce clumps and knots on the lawn. It is used extensively on the finest estates to produce those exquisitely smooth, rich green sweeps of lawn which are so much admired. Lb. 40 cts.; 3 lbs. \$1.15; 5 lbs. \$1.75; 20 lbs. \$6; 100 lbs. \$28. Delivered free in United States by parcel post, freight, or express, our option.

Richardson's Shady Place Lawn Grass Mixture

Will quickly produce an abundant and even growth of beautiful green grass in shade, and as it blends well with our Richgreen Lawn Grass Seed it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a rich green sward. Lb. 55 cts.; 3 lbs. \$1.50; 5 lbs. \$2.25; 20 lbs. \$8; 100 lbs. \$38. Delivered free in United States.

Richardson's Sandy Soil Lawn Grass

A carefully blended mixture of fine-bladed grasses that will produce a permanent and beautiful lawn on the lightest and most sandy soils. Seed one pound to 200 square feet. Lb. 55 cts.; 3 lbs. \$1.50; 5 lbs. \$2.25; 100 lbs. \$38. Delivered free in United States.

Richardson's Permanent Terrace and Slope Mixture

This mixture has been carefully blended so as to contain various grasses of rapid, dense, even growth and strong root-systems, which will insure a permanent, beautiful slope. Lb. 55 cts.; 3 lbs. \$1.50; 5 lbs. \$2.25; 100 lbs. \$38. Delivered free in United States.

These mixtures should be used at the rate of 1 pound to 200 square feet; 100 pounds to the acre

Richardson's Bentgreen Lawn Grass

During the past few seasons, Crab Grass has become so prevalent, especially during late summer, that in many cases it has entirely smothered lawn grasses. To overcome this condition, we have prepared our Bentgreen Lawn Seed Mixture. Creeping Bent Grass makes the thickest and most compact sod of any of the lawn grasses, and when this becomes established early in the season, Crab Grass has very little, if any, opportunity to make its appearance. Lb. 75 cts.; 100 lbs. \$70.

WHITE DUTCH CLOVER. 1/2 lb. 25 cts.; lb. 40 cts. Delivered free in United States.

Delrosa Delphinium Food

A Vitalizer and Balanced Ration Especially Prepared for Delphiniums from Pure Organic Materials, Nature's Plant-Food.

In the spring, when the Delphinium has developed stalks about 4 inches high, thin these out, leaving four or five of the strongest.

Then dig a small shallow trench entirely around the plant, about 6 inches from the crown, and distribute into this one level cupful of Delrosa. Dig in lightly, fill the trench with dry top-soil, and water thoroughly.

After the bloom fades, cut the stalks off below the seed-pods and allow the plant to rest until second flowering stalks are about 6 inches high. Then cut the old stalks down to the ground and feed the plant a second time with Delrosa as before.

General Advice Concerning Delphiniums:

Two feedings a year of Delrosa are recommended. Seedlings require one-fourth quantity of food. Small first-year plants require half quantity of food. Fertilizers should not be placed too near the plant. Never cultivate deeply as the tender feeding-roots are near the surface. Never fertilize after the second blooming. Use 4 ounces for one feeding to each plant.

A 5-lb. pkg. (feeds 10 plants the entire season) \$0 85
A 10-lb. pkg. (feeds 20 plants the entire season) 1 50
A 25-lb. pkg. (feeds 50 plants the entire season) 3 00

Lawn-Boy

Power Mower

\$113.50

We will gladly demonstrate this Mower on request

THE Lawn-Boy Power Mower operates almost effortlessly—you guide it with one hand. Lawn-Boy neatly cuts 18-inch strips with amazing speed. It scoots up and down any slope that will grow grass; steers in circles; follows odd contours; starts and stops with one-hand ease. Due to advanced design, trims closer to walls, hedges, etc., than other Mowers.

COMPACT, LIGHT WEIGHT

Lawn-Boy's quietly muffled, specially designed air-cooled motor does all the pushing; also whirls the 18-inch cutting-blades. Runs right through tough, long grass. Weighs only 95 pounds. Extra-wide wheels won't pack soil. Although rated a small-sized Mower, Lawn-Boy's capabilities have made it a favorite among many large estate owners, institutions, universities, cemeteries, etc. Runs almost all day on a gallon of fuel. Many advanced features fully described in free, complete folder.

HEDGE-BOY ELECTRIC HEDGE TRIMMER

This modern and efficient Trimmer makes it easy to trim the hedge from any position or angle. Manipulated in one hand, it is suitable for horizontal and vertical trimming, and readily adapts itself to special hedge shapes or contours in formal gardens. The Hedge-Boy Trimmer is equipped with a light but dependable motor that operates on either A.C. or D.C. current. A convenient switch furnishes instant control. \$20.50. Rubber-covered Extension Cords, fitted with separate plugs, extra as follows: 30-ft., \$2; 50-ft., \$3.25; 100-ft., \$6.

FLORIDA HUMUS

Florida Humus is obtained from a natural deposit of decayed, water-grown vegetation which has accumulated for ages. It is not the same as sphagnum moss peat, but lighter, fluffier, looser, and is all purely vegetable matter.

It is taken from under water by a suction dredge, which keeps it free from weed seeds, insects, gravel, clay, and other foreign matter, and is perfectly odorless and clean when packed and shipped.

Unusually rich in organic nitrogen (containing more than 2 per cent) and absorbing 5.81 times its own weight of water in 5 hours, it is a natural home for the soil-building bacteria upon which gardening success so much depends.

Prominent growers in this section have made exhaustive tests of **Florida Humus** in the preparation of soils for azaleas, rhododendrons, and roses, both in benches and in the garden. Reports from these tests indicate that **Florida Humus** is superior to any material which these large growers have ever used before.

IN A NUTSHELL

Florida Humus increases the water-holding capacity of the soil.

It aerates the roots and prevents packing and cracking of the surface.

It gives body to sandy soils and prevents leaching. It promotes vigorous and rapid beneficial bacterial growth.

It provides the necessary vegetable matter required by worn-out soil.

It supplies the natural organic nitrogen which all plants need.

Calluna Vulgaris (Scotch Heather)

HARDY HEATHERS. A delightful dwarf flowering evergreen excellent for planting in rock-gardens, on dry banks, or at the base of azaleas or other ericaceous plantings. The flowering period is from late June to frost, so comes at a time when color is scarce in the rock-garden. Average height, 10 to 15 inches. They require an acid soil with full exposure to the elements and are improved by cutting back each spring to encourage new growth and heavy flowering wood. See page 8, Rock-Garden section, for varieties.
